Book for Florists

Vaughan's Seed Store
New York Chicago

Tulip Prices are Going Upward

SINCE our purchases were made, prices on tulips of the varieties popular with florists have steadily advanced. They remain very low, and an excellent buy for the florist with a ready market for his forced plants; but we advise prompt action to cover your needs. Prices are dictated by supply, and Dutch growers are discovering that many have curtailed production of the varieties which sell cheapest.

Hyacinths of the larger sizes are scarcer than last year; and prices higher. Smaller sizes are in demand abroad for planting stock. Blue and yellow varieties are especially scarce. It is probable the supply of all hyacinths will be inadequate.

American Grown Narcissi

Paper Whites are no more plentiful than last year. California bulbs have shown a tendency to split, with a scarcity of large bulbs. The South Carolina crop of 13 ctms. is fair. We are exercising the greatest care in purchasing from proved sources bulbs which have been inspected at several stages of their growth and harvest by our buyers.

Hardy narcissi have given an improved crop though still short of the needs of this country. In this field excellent progress is being made by the growers, in cooperation with state and federal inspectors and the prospect for the eventual production of an ample supply of vigorous clean bulbs in this country is excellent.

For 50 years we have supplied the most critical of florists with forcing bulbs of which the quality is assured by our long experience in importing and knowledge of sources; and the price by our cash buying power and convenient shipping centers in the two great importing and distributing centers—Chicago and New York.

The prices in this catalogue are subject to change without notice. Those florists who placed their orders with us before May 1st will be invoiced at early import prices.

GIANT BLOSSOMS OF CLEAR COLORING COME FROM OUR HYACINTH BULBS

Hyacinths Dutch-Grown (Single)

French Roman Hyacinths

French crops are apparently lighter each year and prices are still high. It is very useful for all who grow for their own retail cut-flower work for winter bloom. Growers find these useful at holidays.

Grow in flats and use for cutting same as Paper Whites. Fine for design work.

We can offer the following sizes:	Per 100	Per 1000
White Roman Hyacinths, 12 ctms. and up.	\$12.00	\$110.00
Colors.....	8.00	75.00

It will be a mistake for any florist to minimize the importance of hyacinths in his production program this year. While a little high in price, their finished product will bring good returns. For Easter and Mothers' Day they will be sure of a profitable sale.

We strongly advise a liberal use of hyacinths.

American, Bermuda and Japanese } Lily Bulbs

Lilium Giganteum

Owing to the unsettled condition of the Lilium Giganteum market, at the time this catalog goes to press, we are not pricing this item. We believe, however, that they will be about like last year. Our customers may depend not only upon the best market prices, but on guaranteed grading—a vital point. Our arrangements in Japan provide for selection of sound, well-shaped bulbs. Crescent-shaped, malformed and undersized bulbs are taken out. If any of our cases reach you with undergraded or inferior lily bulbs in them, ask us at once for disposition and we guarantee they shall be graded to match exactly the sizes we invoice.

Lilium Erabu

Cold Storage 10 Days

Growers must not force Erabu in great heat. A cool house, 60 to 65 degrees, with plenty of moisture is better, but they will certainly do best when grown in pots so they can be shifted into sections representing varying heights to give proper light and watering.

N. B.—Ten days in cold storage before planting is sure to benefit the crop.

Lily of the Valley

In packing and grading the Lily of the Valley Pips for our trade, pips of one type and style of growth, raised on the same soil, will be branded separately, so that the customer receiving a certain number and brand from us, and forcing it to his satisfaction can depend on the same grade right along until sold out and will be advised by us when the grade is changed. This, we believe, will be much more satisfactory to the forcer than the former indiscriminate method of delivering all kinds and shapes of Valley under one brand, the planter never knowing what kind of a pip would open up in the next case received.

Our quality has never been better but, as usual, orders should be placed early to secure same. Prices ready in November.

American Grown Hardy Narcissi

A GAIN this year we have made a painstaking investigation of available American supplies, in order to assure our customers of the best stocks to be had. Every section of the country where narcissi are being grown, from the Pacific coast to the Atlantic ocean and the Gulf of Mexico, was visited by the manager of our bulb department.

Besides growing 25 acres of hardy narcissi on our own farms we have contracted with growers in the States of Illinois, Washington, Oregon and Michigan. Their fields have also been inspected by our bulb manager and each case supplied to our customers will bear a certificate of inspection as to their condition. Florists in Minneapolis, Missouri, Illinois and New York have tried bulbs from these sources and were well satisfied. Numerous greenhouse tests of bulbs supplied by us this past fall, satisfy us that the source of our supply is "right," and good results can be had. Early ordering is an important consideration. We suggest you try a few this year, then next year you will be better prepared to increase your plantings.

Narcissus Paper White Grandiflora

We have selected our American grown Paper Whites with the same care that we have learned to take in purchasing imported bulbs; keeping in mind the requirements of the greenhouse forcer. We have chosen the stock of growers of experience, whose technical ability has been demonstrated, who are in locations of favorable soil and climate and whose stocks have been tested for forcing. And, above all, we have chosen stocks that are free from insects and disease. Our narcissus bulbs will carry certificates under the federal quarantine giving them a clean bill of health. We caution florists against buying cheap bulbs of Paper Whites. You might get bulbs which have been left in the ground two or more years, and which show double crowns. Such bulbs will produce plenty of foliage, but will lack flowers. There will be plenty of them, so "Beware!"

The fields from which our bulbs come were inspected at flowering time, to insure true type; and a further inspection was made at harvesting time. Our Paper White bulbs will come from selected fields in California and South Carolina and the Rio Grande Valley of Texas. These stocks have all been tested for forcing in soil and in water and the reports from such tests are that while flowering somewhat later than imported bulbs, results are equally good.

Our advance bookings of Paper Whites this year are far ahead of what we anticipated and with a short crop we regret to say as this book goes to press that we are **Sold Out**.

Miscellaneous Bulbs

Giant Hybrid Amaryllis

One of the finest strains of Amaryllis we have ever seen. Flowers are immense, composed of broad, well-rounded, overlapping petals; of the most perfect form, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self colors as scarlet, crimson, bright red, cherry and almost maroon.

Bulbs 3 inches and more and are sure bloomers.

Make wonderful window displays.

ANEMONES

One of the most showy flowers, good for cut flowers. They thrive in any soil except a very heavy clay. Soak the bulbs in water about 24 hours before planting. Set 10 inches apart, about 2 inches deep. Sunny location, plenty of moisture. Special Mixed, per 100, \$4.00; per 1000, \$35.00.

St. Brigid. Double flowers. Per 100, \$4.50; per 1000, \$40.00.

White Calla

(Aethiopica)

These can be grown at less expense during the winter months, requiring less heat than other lilies.

Callas being natives of swampy regions grow to best advantage where there is an abundance of moisture, and are therefore very difficult to handle in the curing. Some growers practice **premature cutting off the tops**, expose bulbs to the sun, in order to make **early shipment**. This is very dangerous and will cause dry rot.

We therefore take great pains in **securing our stock from growers** in California who do not use this practice. Our stock is **thoroughly cured in the ground and dried** thoroughly before they are packed. This, of course, means **later delivery** but better results can be obtained from such bulbs.

We caution forcers of Callas to water this stock sparingly after planting because Calla bulbs store up considerable moisture.

Sell Vaughan's Famous Bulbs from Our Beautiful Displays

FOR 50 years we have been the source of supply for flowering bulbs for florists and private estates throughout the United States. Now we have made it possible for dealers to display and sell Vaughan bulbs of named varieties without danger of overstocking, spoilage, or mixture of varieties. Our patented 10-compartment display box of 100-point board, printed in brilliant colors, holds 500 bulbs, 50 each of 10 named varieties. They are open to your customer's inspection, and exposed freely to the air, as is necessary to prevent rot. Counter space of 13x29 inches, only 2½ square feet, is needed.

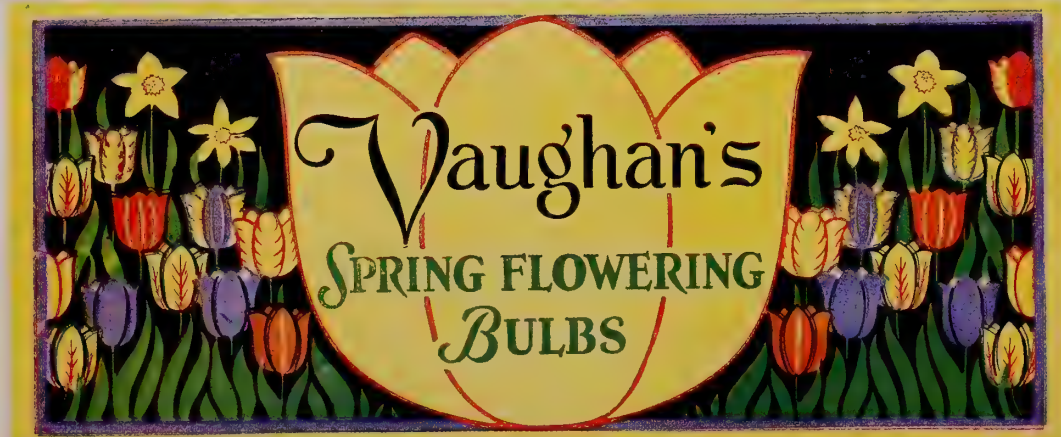

The 10 named varieties (50 each) in this collection are the most popular we know, including: Tonnaye, Pride of Haarlem, Farncombe Sanders, Inglescombe Yellow and others of like quality. You retail them for 50 cents per dozen, and your profit equals your investment. After the display box and first collection have been bought, refill orders will be accepted for

\$9.00 for 500 bulbs, 10 each of the same varieties, in bags of 50; or \$17.50 for 1,000 bulbs, 100 each of the same 10 varieties, 50 in the bag. As each compartment in the box holds easily 50 bulbs, it is convenient to transfer the entire bagful to the proper bin when the latter is empty. This prevents mixtures and loss of bulbs.

The Best Side Line for Florists

A Display Which Will Ornament Your Store

ANY florist who maintains a retail store faces this problem: How to increase volume in dull seasons, when flower sales are few, but overhead expense goes on just the same.

The best answer so far is: Expand your stock. Anticipate sales opportunities, and carry new lines which your regular customers will be glad to buy of you.

Seeds and Flowers Go Together

In selecting new lines, you must be careful. A florist shop cannot become a department store. All important to your prosperity is the impression you make on the public mind. This must be clean-cut, unconfused. They must never think of your shop as anything but a high grade florist shop. Nothing must be added to your stock, or displayed in your store which will contradict this impression. Your side lines must be limited to such as are naturally associated with flowers.

The seed business is naturally allied with the florist business. Many of your customers buy seeds, and they will prefer to buy them of you, because you are expert in the use of seeds. And now you can offer them Vaughan's Seeds, the kind you use, and know and can recommend, displayed in the artistic poster-rack, illustrated above, whose brilliant colors will ornament your store.

A Growing Business You Should Share

Gardening is on the increase, and the seed business is growing rapidly along new lines. Before the world's war the largest sales were of vegetable seeds, for money-saving kitchen gardens. Now there is a different trend. Gardens are being made for recreation and decoration, and sales of flower seeds are showing the greatest increase. Florists are the natural source of decorative materials. Every florist should carry seeds, and there is only one seed display which has been designed especially to fit into and adorn the florist shop; that is:

Vaughan's Seed Display Beautiful.

On the back of each packet are cultural directions.

Brilliantly Colored Posters and Streamers. Color sells everything nowadays and nowhere is it more necessary than in selling the garden. Vaughan's posters are modern, artistic, brilliant. They will dress up your store and give it the atmosphere of spring, helping business in every line.

No. 1 and No. 2 Grade Roses

We also have a No. 1 and No. 2 grade of dormant two-year-old plants for those who can use lighter stock. These are fine plants but not equal to our forcing grade and are not recommended for such use. Send us your list and we will quote you the best possible quality price.

Ornamental and Flowering Shrubs

OUR shrubs are nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. They should not be compared to stock that is never moved from the cutting or seedling beds until sold. Our Nursery is located at Western Springs, 15 miles west of Chicago on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

Shipping Directions: All stock is sold F. O. B. Western Springs. Packing charges to be added on all orders for shrubs, dormant-roses, fruits trees and

vines, at cost. Always give full and explicit shipping directions, as our responsibility ends on delivery to the express or freight office in good condition. All trees, shrubs and plants shipped subject to customer assuming risk regarding their own State Nursery Inspection Regulations. Certificate furnished with each shipment.

Where personal selection of stock is made at our Nursery we charge according to its value.

Specimens. This term is applied to plants that are perfect in height and diameter as well as shape, and are recommended for immediate effect.

Vaughan's Seed Store

Special Brand of Bird and Fish Supplies

BIRDS AND FISH have become established as florists' and seedsmen's side lines. Profits in this business depend as much on sales of foods and supplies as on the original sales of birds, fish, cages and aquariums. In our own retail business we have had to solve the problem of obtaining a complete line of reliable supplies which we could offer to our customers in complete confidence of their high quality. In some cases we found it necessary to put up our own; and so we decided to prepare a complete line and offer it to our wholesale trade. Everything listed here is put up by us, or especially for us and according to our specifications. Vaughan's quality is maintained throughout.
